Things to consider when looking at a Lend Lease Retirement Village.

The decision to move to a retirement village is a major one. Apart from the financial commitment, you want to be sure that it's going to be the right thing for you. There are certainly lots of advantages, but we don't expect you to take our word for it we encourage you to visit a village or two, talk to some people living there and ask as many questions as you like of the staff.

When is the best time to move?

Retirement is naturally a good time to consider a change of lifestyle as you'll most likely have more time and freedom than you've had for a long while. Whether you're still working or not our villages are specifically designed to help people make the most of the freedom and lifestyle that retirement brings.

Choosing where you want to live.

One of the other advantages of moving to a retirement village is that there are a range of locations and styles to choose from. Whether it's fulfilling that lifelong dream of a sea or tree change or staying in your local area to spend more time with your family. With more than 70 villages around Australia and New Zealand, Lend Lease has more options than just about anyone else.

Choosing what sort of home you want.

Retirement homes come in a range of sizes, from one bedroom to three. The best place to start is to compare what's on offer with your current home and ask yourself what will best suit you. A smaller home can reduce housework and maintenance while you enjoy the village facilities or you might like an extra bedroom for when friends or family come to stay.

We hope you have found this information helpful and look forward to showing you around one of our villages very soon.
