Tenant engagement

Put simply, tenant engagement is about the activities and strategies that keep our tenants excited about the workplace. The goal is simple too - to create a vibrant, welcoming environment for all staff. At The Zenith we have a dedicated team who ensure the office experience is something unmissable.

Working together

Arrow Capital Partners is proud to work with our tenants to help attract staff talent and assist with back to the office strategies post Covid. Once new tenants are in the building we sit down with their Senior Management to discuss how to best engage staff, be it fundraisers and events, environmental credentials, facilities or communications.

The Zenith difference, makes all the difference.
