Lisgar House consists of 8 levels of office suites, ground floor retail and newly refurbished end of trip facilities.

The building has sweeping views across Wynyard Park and is moments to the Wynyard bus and rail interchange.

History

In 1928, Lisgar House at 32 Carrington Street was constructed by the St Joseph's Investment and Building Society, shortly after the excavation of Wynyard Park for the city circle rail line.

The building, originally designed by architects Gilbert, Hughes and Moloney, has gone through significant changes over the years, including the addition of a rear extension that doubled the buildings footprint. The building featured a statue of St Joseph the Carpenter, carved by Arthur Collingridge in 1888, which was moved from another building and is still preserved today on Level 7, Lisgar House.
